Disruption & Growth Strategy.

Almost 85% of respondents expect disruption to their part of the education market before 2025 - 57% of those expecting disruption within the next 24 months. Almost a quarter of respondents cite technology as their top growth strategy going forward, an increase of 10% over the past two surveys.

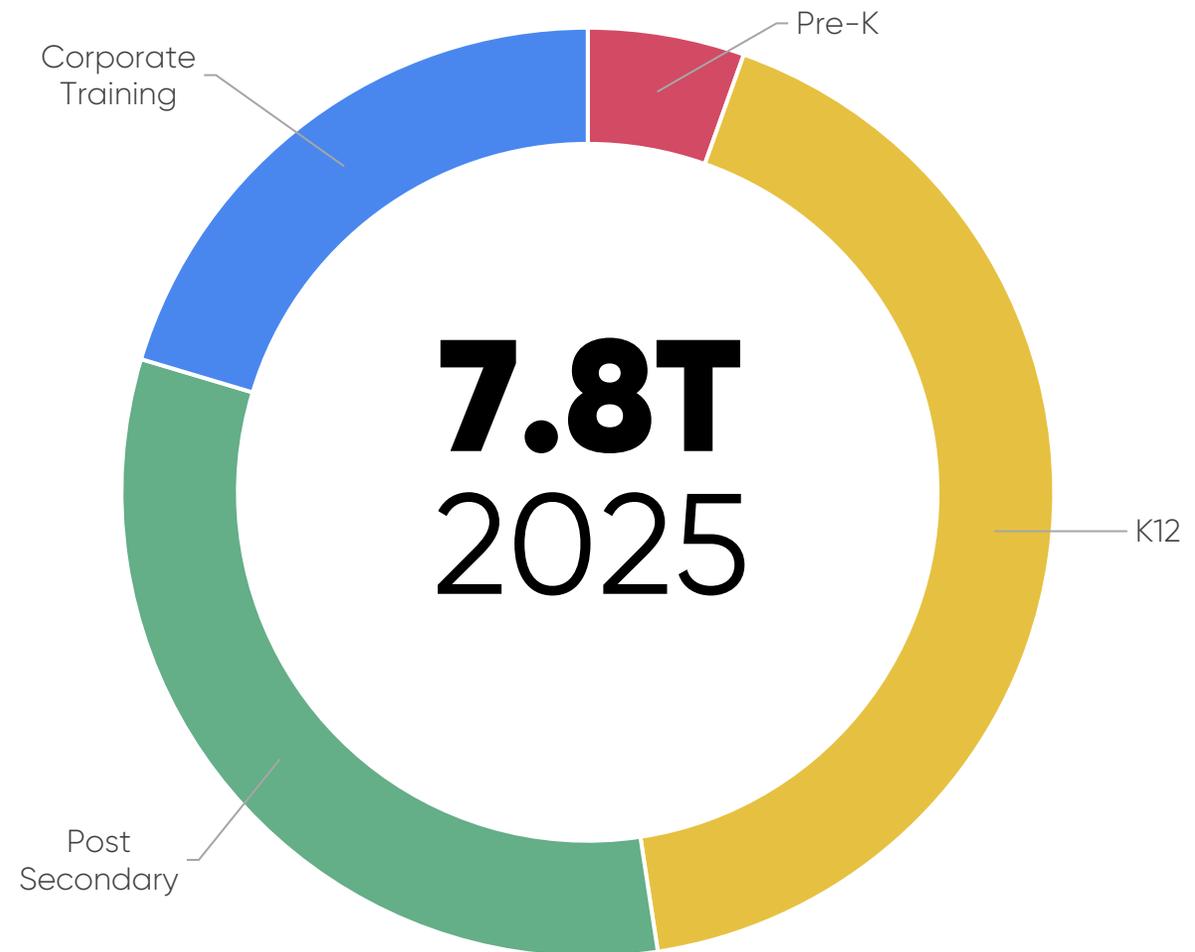

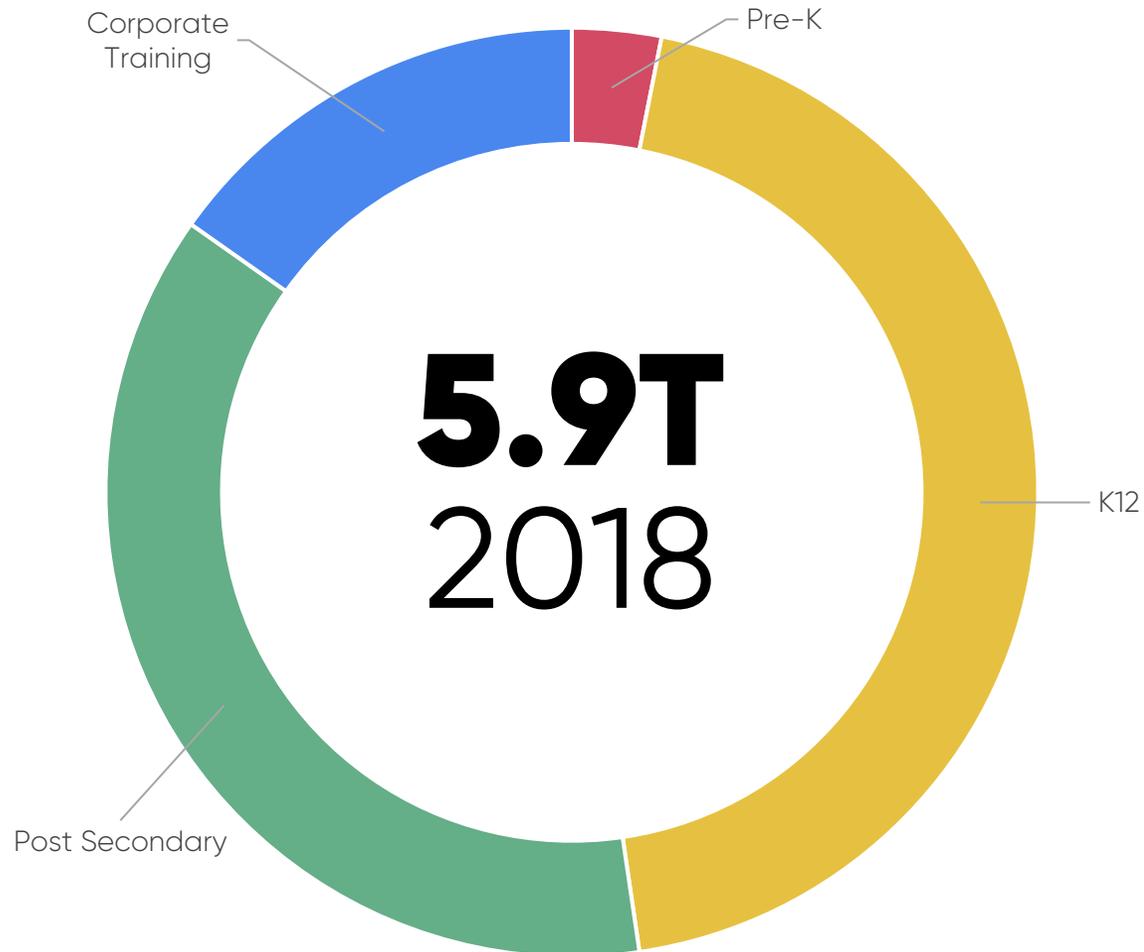

Disruption Expectations by Sector, March 2020

Top Growth Strategy by Sector, March 2020

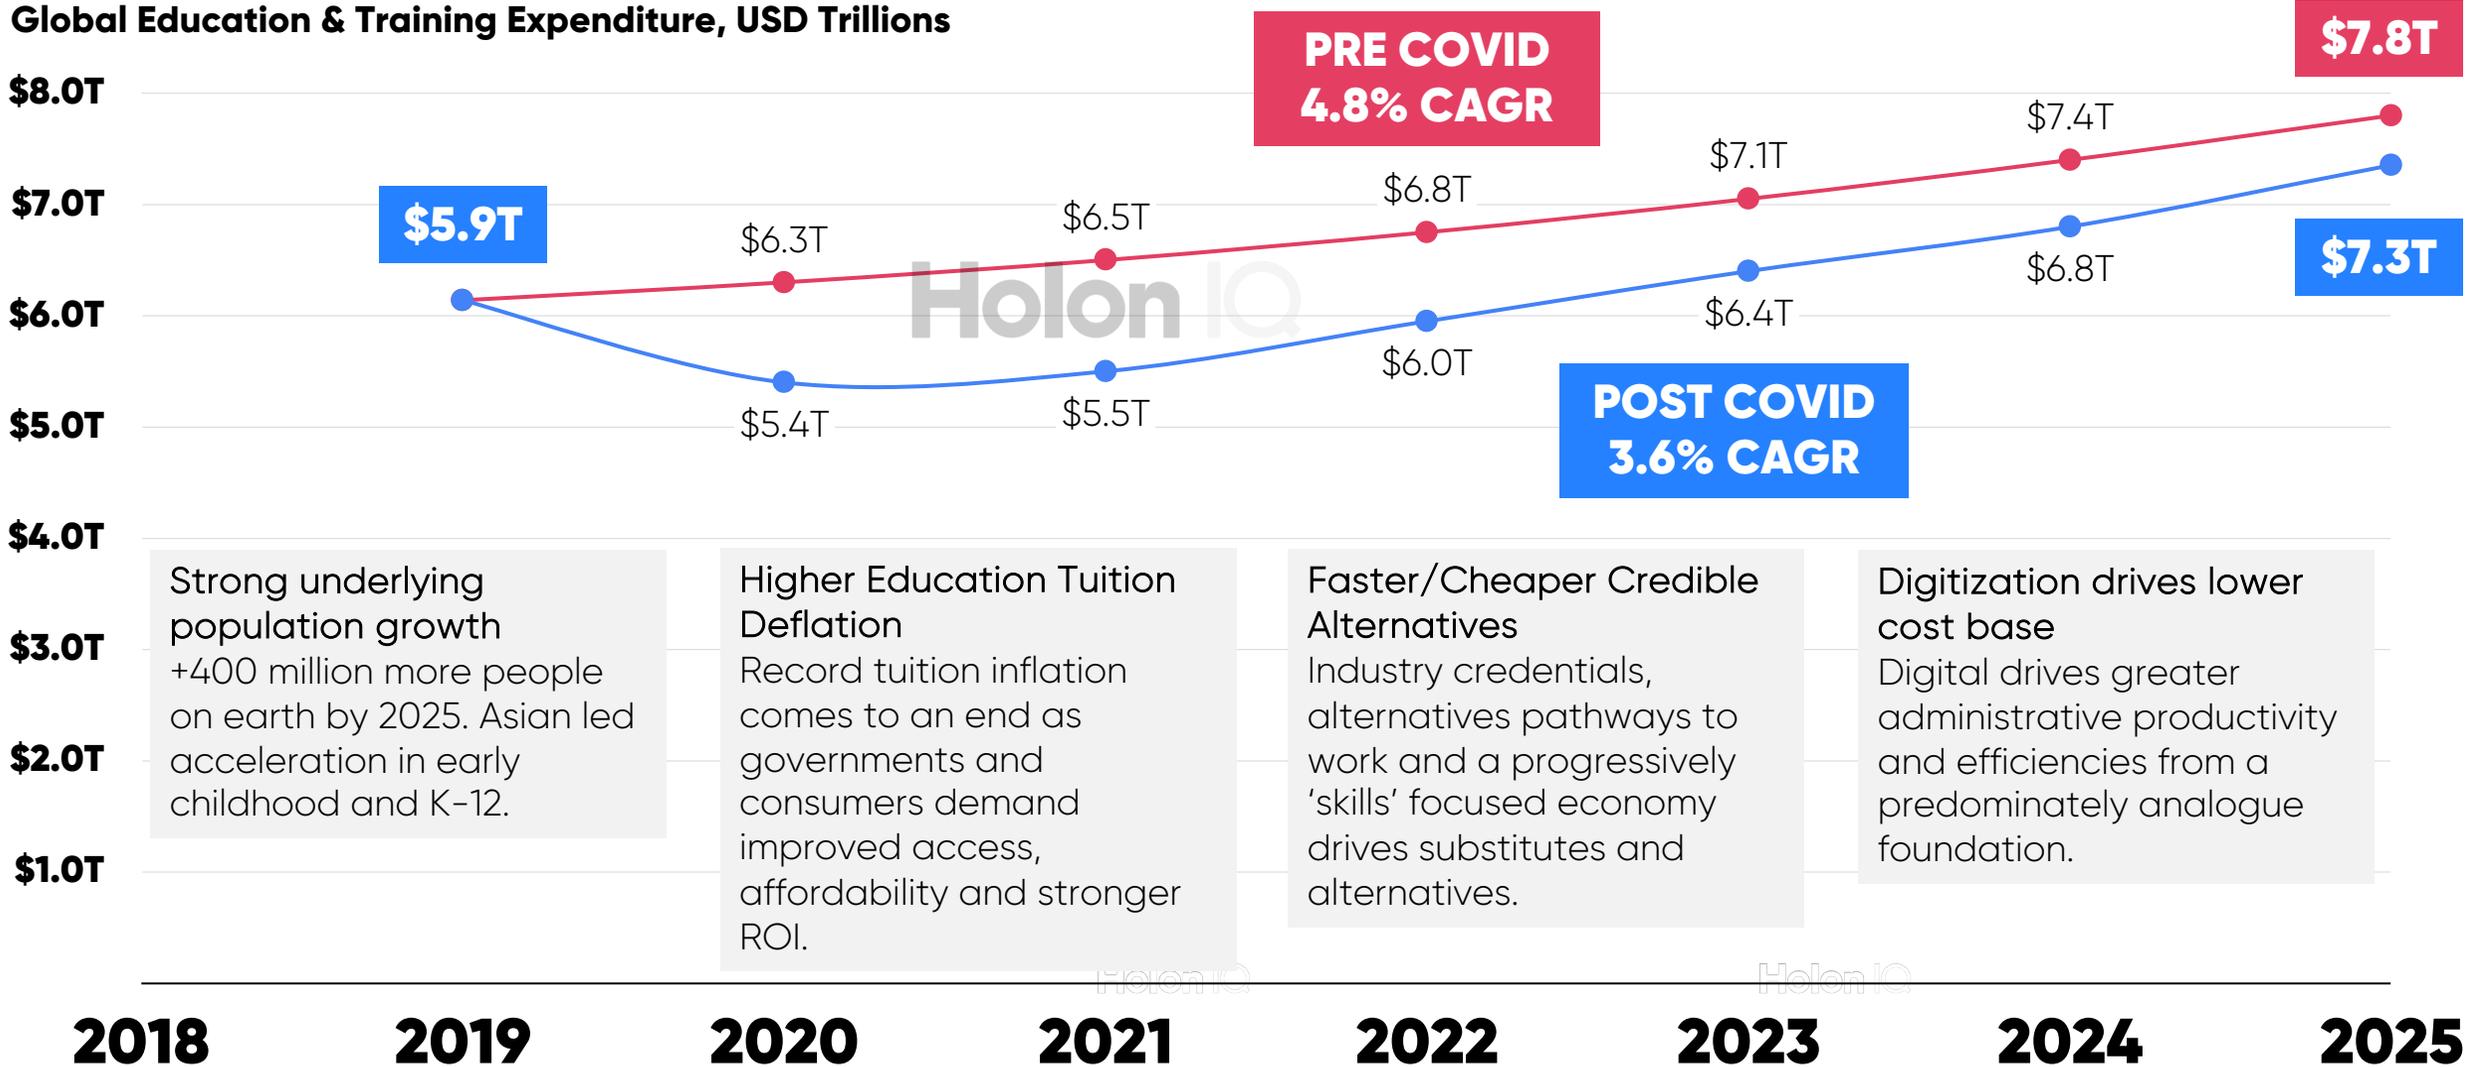

Pre-COVID Growth Expectations

Material changes to global education

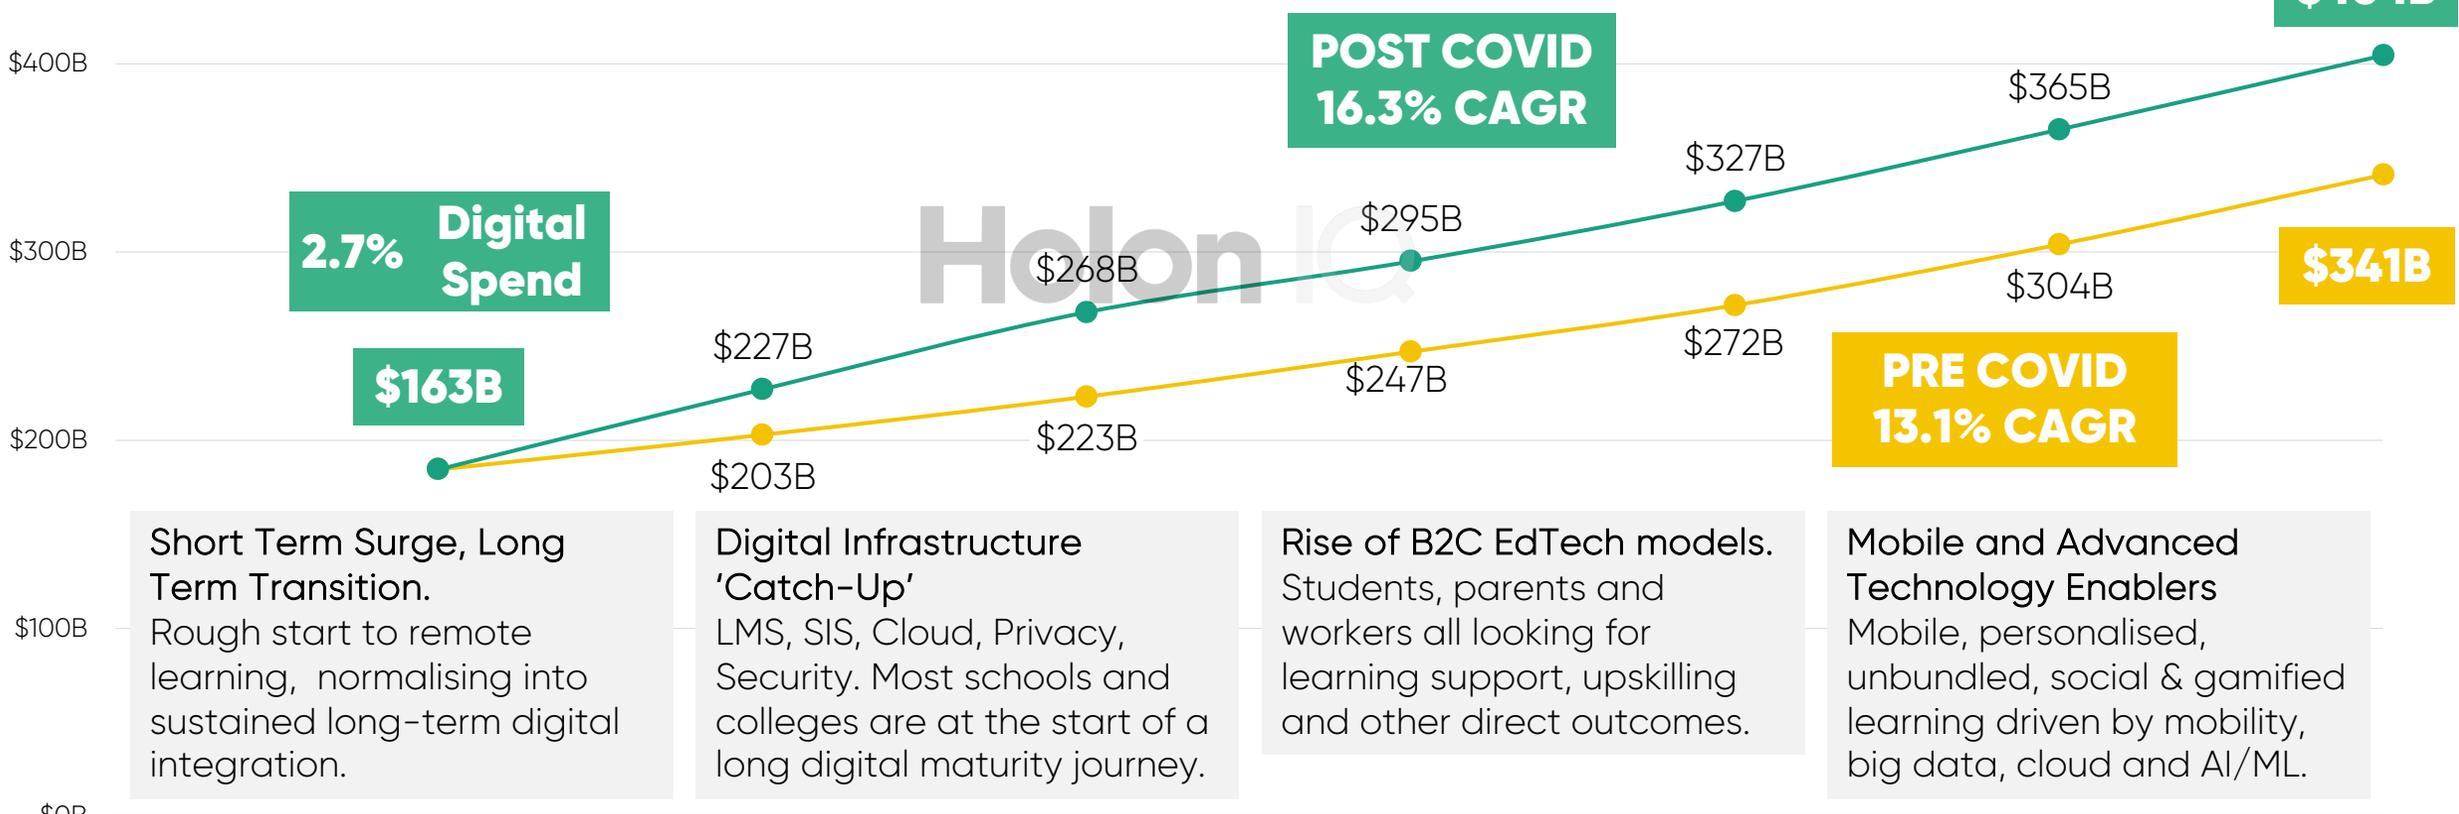

Global Education & Training Expenditure, USD Trillions

EdTech is accelerating

5.2% Digital Spend

Global 'EdTech' Expenditure, USD Billions

Short Term Surge, Long Term Transition.
Rough start to remote learning, normalising into sustained long-term digital integration.

Digital Infrastructure 'Catch-Up'
LMS, SIS, Cloud, Privacy, Security. Most schools and colleges are at the start of a long digital maturity journey.

Rise of B2C EdTech models.
Students, parents and workers all looking for learning support, upskilling and other direct outcomes.

Mobile and Advanced Technology Enablers
Mobile, personalised, unbundled, social & gamified learning driven by mobility, big data, cloud and AI/ML.

	2018	2019	2020	2021	2022	2023	2024	2025
Total Expenditure		\$5.9T	\$6.3T	\$6.5T	\$6.8T	\$7.1T	\$7.4T	\$7.8T
Digital Expenditure		\$163B	\$227B	\$268B	\$295B	\$327B	\$365B	\$404B
Digital Share		2.7%	3.6%	4.1%	4.3%	4.6%	4.9%	5.2%

Innovation across the entire Learner Lifecycle

Childhood

K12

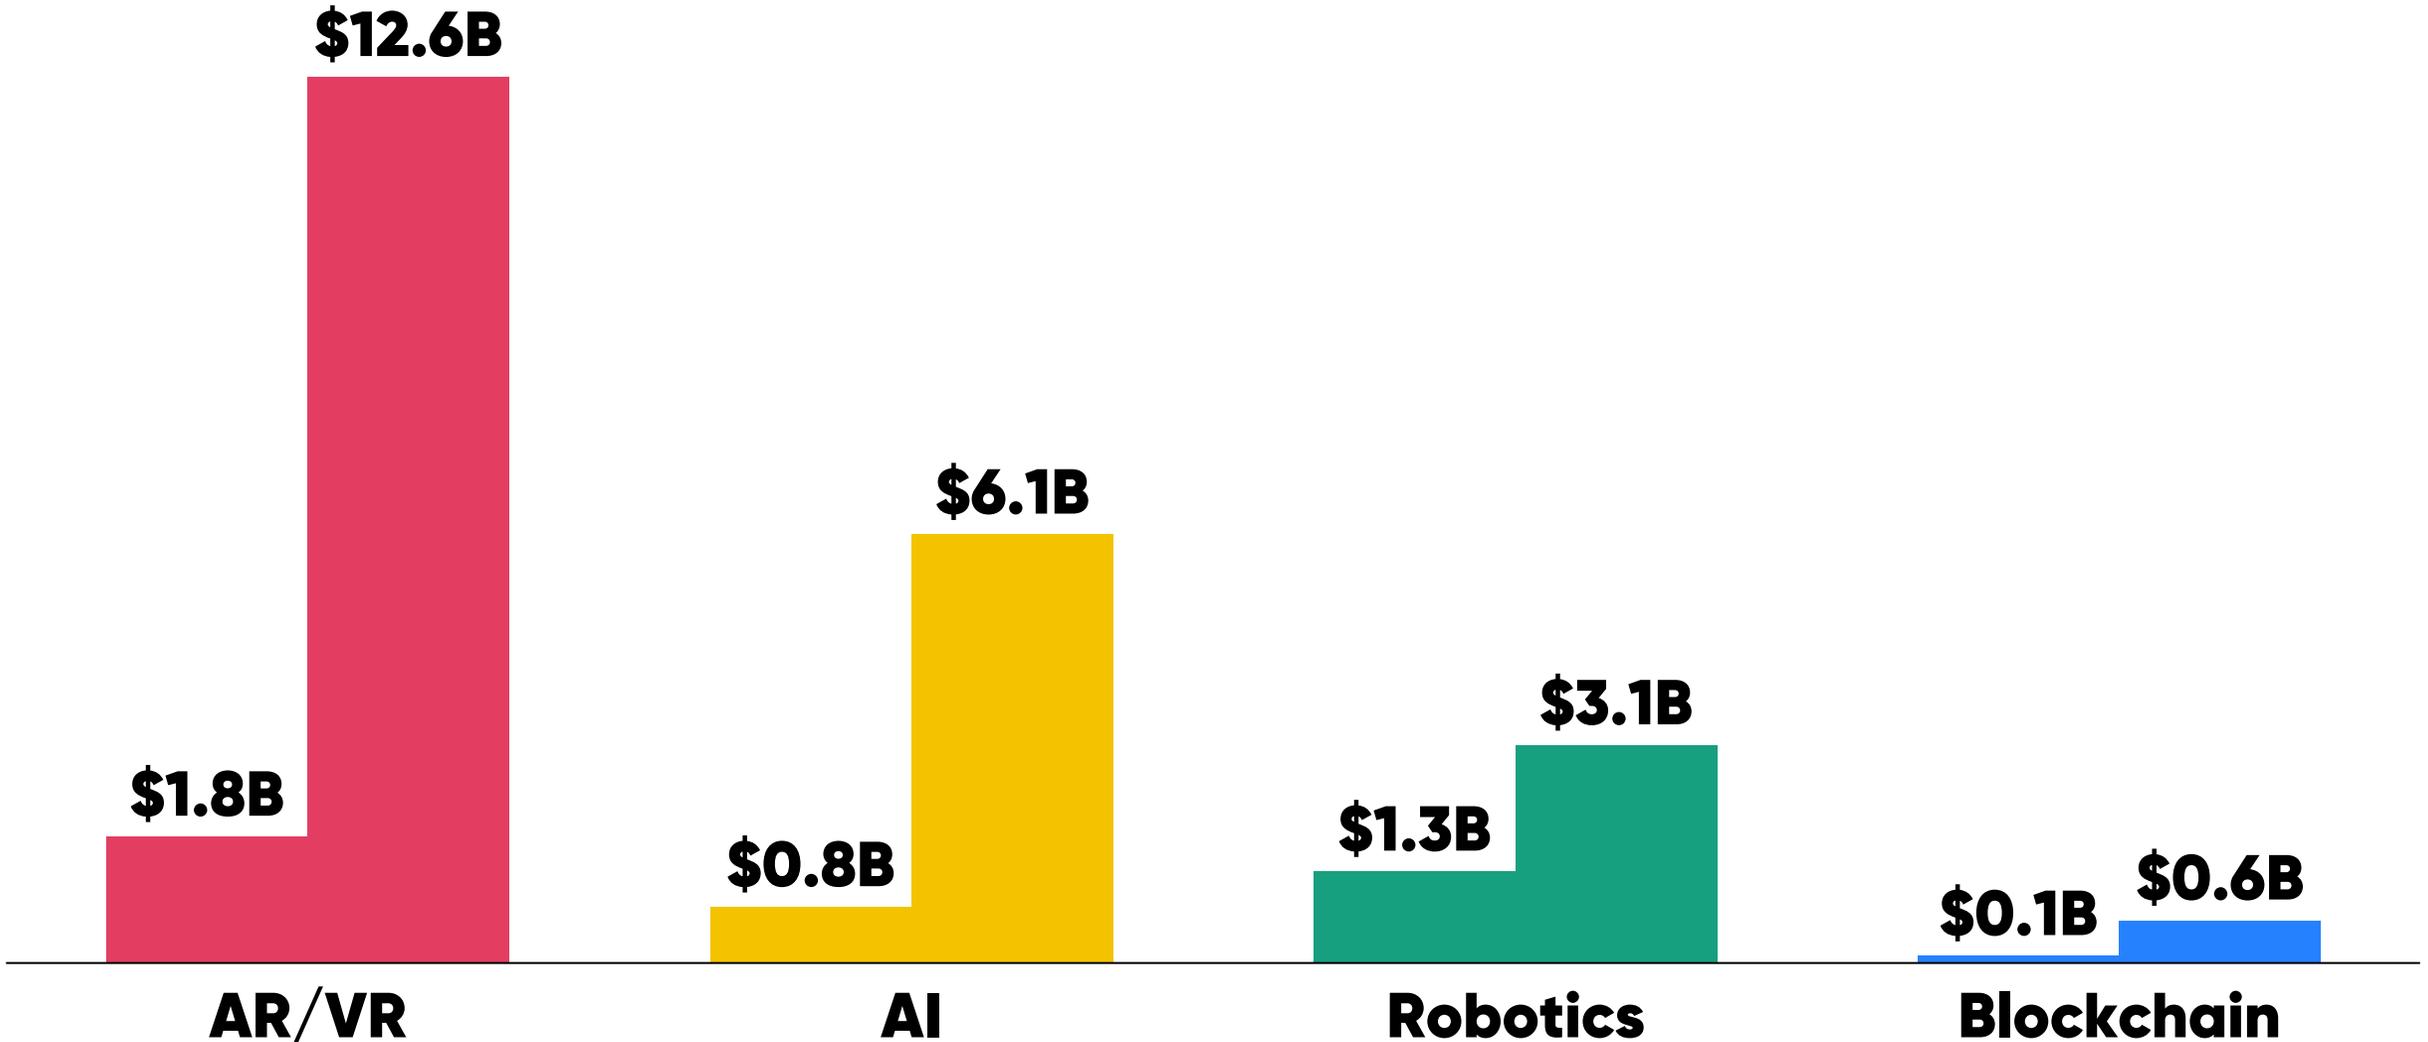

Higher
Education

Workforce

2018 vs 2025. Advanced Technology in Education.

Global AI Strategy Landscape

Australia. 'Prosperity Through Innovation'
Four-year, \$21m investment from national budget to support development of AI.

China. 'Next Generation AI'
Launched July 2017, the most comprehensive AI strategy globally with 2030 targets for a \$1T RMB AI industry

France. 'AI for Humanity'
€1.5 billion plan announced in 2018 in the 'Villani Report' to transform France into a global leader in AI.

Ireland. 'AI Island'
Irish Economic Development Agency led process. AI Master program launched in 2018 and is 100% industry driven.

Kenya. Blockchain and AI Task Force
Task Force established Feb 2018 with a five-year planning horizon.

New Zealand. AI Forum
May 2018, AI Forum released a report titled, "Artificial Intelligence: Shaping a Future New Zealand."

Singapore. 'AI Singapore'
S\$150m, five-year national program launched May 2017.

Sri Lanka
National Expert Strategy Advisory Committee announced Aug 2018 working on AI Strategy for Sri Lanka

UAE
Announced in Oct 2017. First country to create a Ministry of AI and first in the Middle East to launch an AI strategy

Austria. 'Robot Council'
Established a Robot Council in August 2017, with a one million euros working budget from the Ministry of Infrastructure.

Denmark. 'Digital Growth Strategy'
Broader policy focused on Big Data and IoT launched Jan 2018.

Germany.
€3 billion plan announced Nov 2018 with a dedicated AI strategy to make Germany & Europe a global leader in AI.

Israel. 'StartUp Nation needs AI Policy'
Innovation Authority, tasked with AI policies, has warned that a strategy is needed to prevent falling behind.

Malaysia. National AI Framework
National AI Framework launched in 2018 led by MDEC, expanding the National Big Data Analytics Framework.

Poland. Roundtable
May 2018 Roundtable on AI Strategy focused on healthcare, public administration, education & cybersecurity

Saudi Arabia. 'Robot Citizenship'
Became the first country to grant citizenship to a robot in October 2017. No dedicated AI strategy yet.

Sweden
National Approach for Artificial Intelligence launched in May 2018.

United Kingdom. 'AI Sector Deal'
Announced in April 2018. \$1.24B funding as part of the UK's larger industrial strategy.

Brazil. 'E-Digital Strategy'
E-Digital Strategy addresses digital transformation including AI

Estonia. AI Task Force
E-governance forerunner, initially focused on autonomous cars, now building a broader AI strategy.

India. 'Social Inclusion and AI Garage'
Jun 2018 working paper on using AI to ensure social growth, inclusion and positioning the country as a leader in AI

Italy. 'At the Service of Citizens'
Interdisciplinary AI Task Force launched by 'Digital Italy'. White paper March 2018, 'AI: At the Service of Citizens'.

Malta. 'Malta.ai'
Malta.ai launched Mar 2019 to share vision and process towards an AI strategy.

Qatar. Feb 19 Blueprint
Qatar Center for Artificial Intelligence (QCAI) launched National AI Strategy for Qatar. Announced on 7 February 2019.

South Africa. 'IFPTI considers AI'
Intsimbi Future Production Technologies Initiative" launched in 2018 with aim to advancing manufacturing sector.

Taiwan. 'Taiwan AI Action Plan'
Four-year plan launched January 2018, with 350m annual budget.

United States. 'American AI Initiative'
Launched Feb 2019 by Executive Order promote and protect AI technology. AI.gov launched Mar 2019.

Canada. 'Pan-Canadian AI Strategy'
Five-year, \$125m plan announced in 2017 federal budget. Led by CIFAR. Research and talent focus.

Finland. Steering Group
Steering Group appointed May 17 releasing two interim reports. Full strategy expected very soon.

Indonesia
Leading Asia-Pacific market in the adoption of and plans for AI however no dedicated AI strategy as yet

Japan. 'Society 5.0'
Strategy launched in 2017 to create sustainable solutions for better human life in Japan.

Mexico. 'Towards an AI Strategy'
Commissioned by the British Embassy in Mexico and released in June 2018. Sets foundations for a national AI strategy.

Russia. Mar 18 Conference
March 2018 conference made 10 policy recommendations. National Strategy expected very soon.

South Korea
Five-year AI development plan launched May 2018 with \$1.95B budget.

Tunisia
AI Task Force and Steering Committee appointed in April 2018. Strategy expected very soon

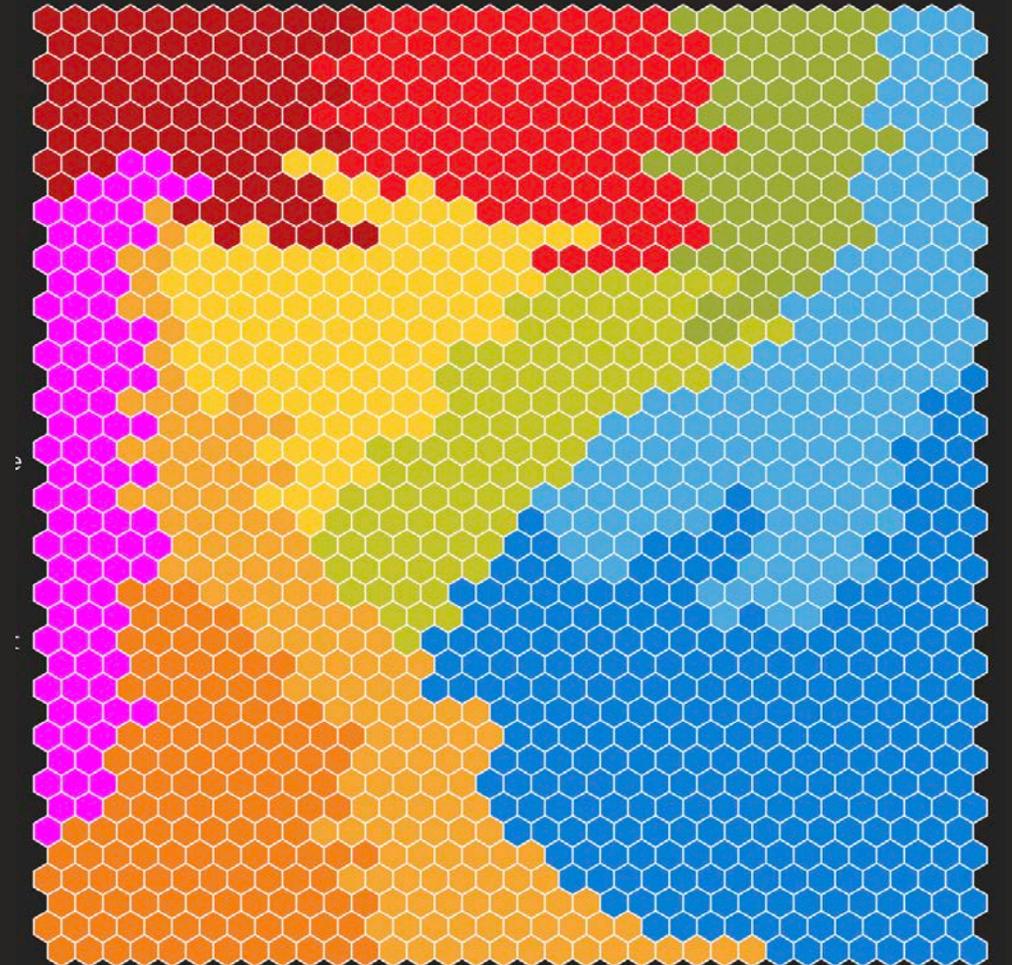

Global Learning Landscape

'Bottom Up' – Machine Learning

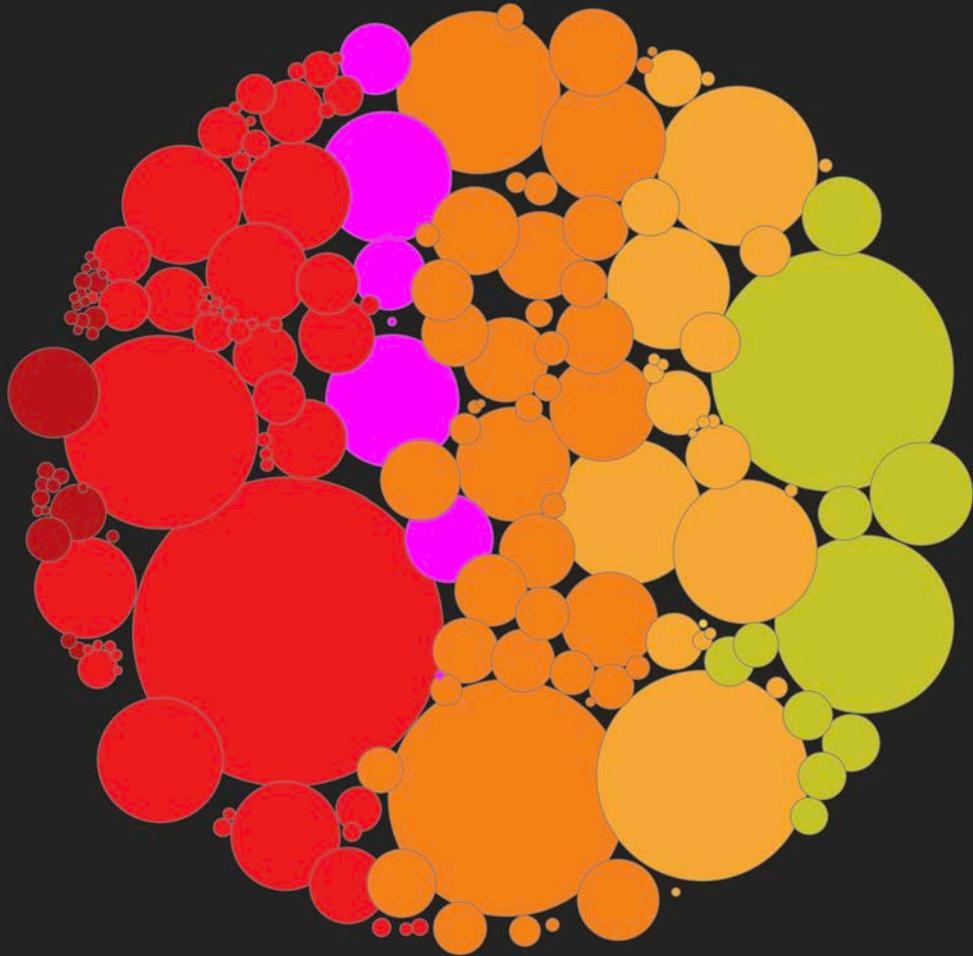

In order to support the development of the taxonomy, we initially undertook 'bottom-up' analysis using HolonIQ's proprietary machine learning and artificial intelligence to analyze 60,000+ education organizations worldwide.

The analysis identified natural patterns in the data using 'Unsupervised Learning' to explore new approaches to clustering and segmentation that are not anchored or biased by the more established and traditional taxonomies of education.

The visualization on the right-hand side of the page for example is exploring the network of organizations in a single country. Organizations that are similar in how they support learners, parents, schools and institutions are clustered together based on the segments they service and the models and technologies they employ.

'Top Down' – Human Expertise

HolonIQ's Education Intelligence Unit and our global network of experts from early childhood to lifelong learning bring deep expertise to our 'top-down' approach.

The top-down analysis draws on the data-driven foundations of the bottom-up analysis to interpret patterns that the machine learning and artificial intelligence process produced.

Considerations include context, history, purpose, business model, technologies and ecosystem relationships to add depth and interpretive understanding to the process. This also enables validation of findings against the models and innovations found in education today or expected in the future.

Global Learning Landscape

Diagnosis and Action

The Open Source Framework identifies key domains and capabilities required for digital delivery across the whole student lifecycle and provides a structure to facilitate cross-institution conversations. It is designed to allow flexibility and interpretation in context. The 70+ capability blocks can be used to assess institutional strength in areas of strategic priority, to conduct internal and external benchmarking and ultimately to guide strategic procurement decisions.

Trends and Scenarios

Education in 2030. Five Scenarios

Education-as-Usual
 Traditional education institutions remain the trusted source of learning and the most effective vehicle for jobs and prosperity. Higher Education consolidates, global talent platforms emerge and government remains the core source of funding around the world.

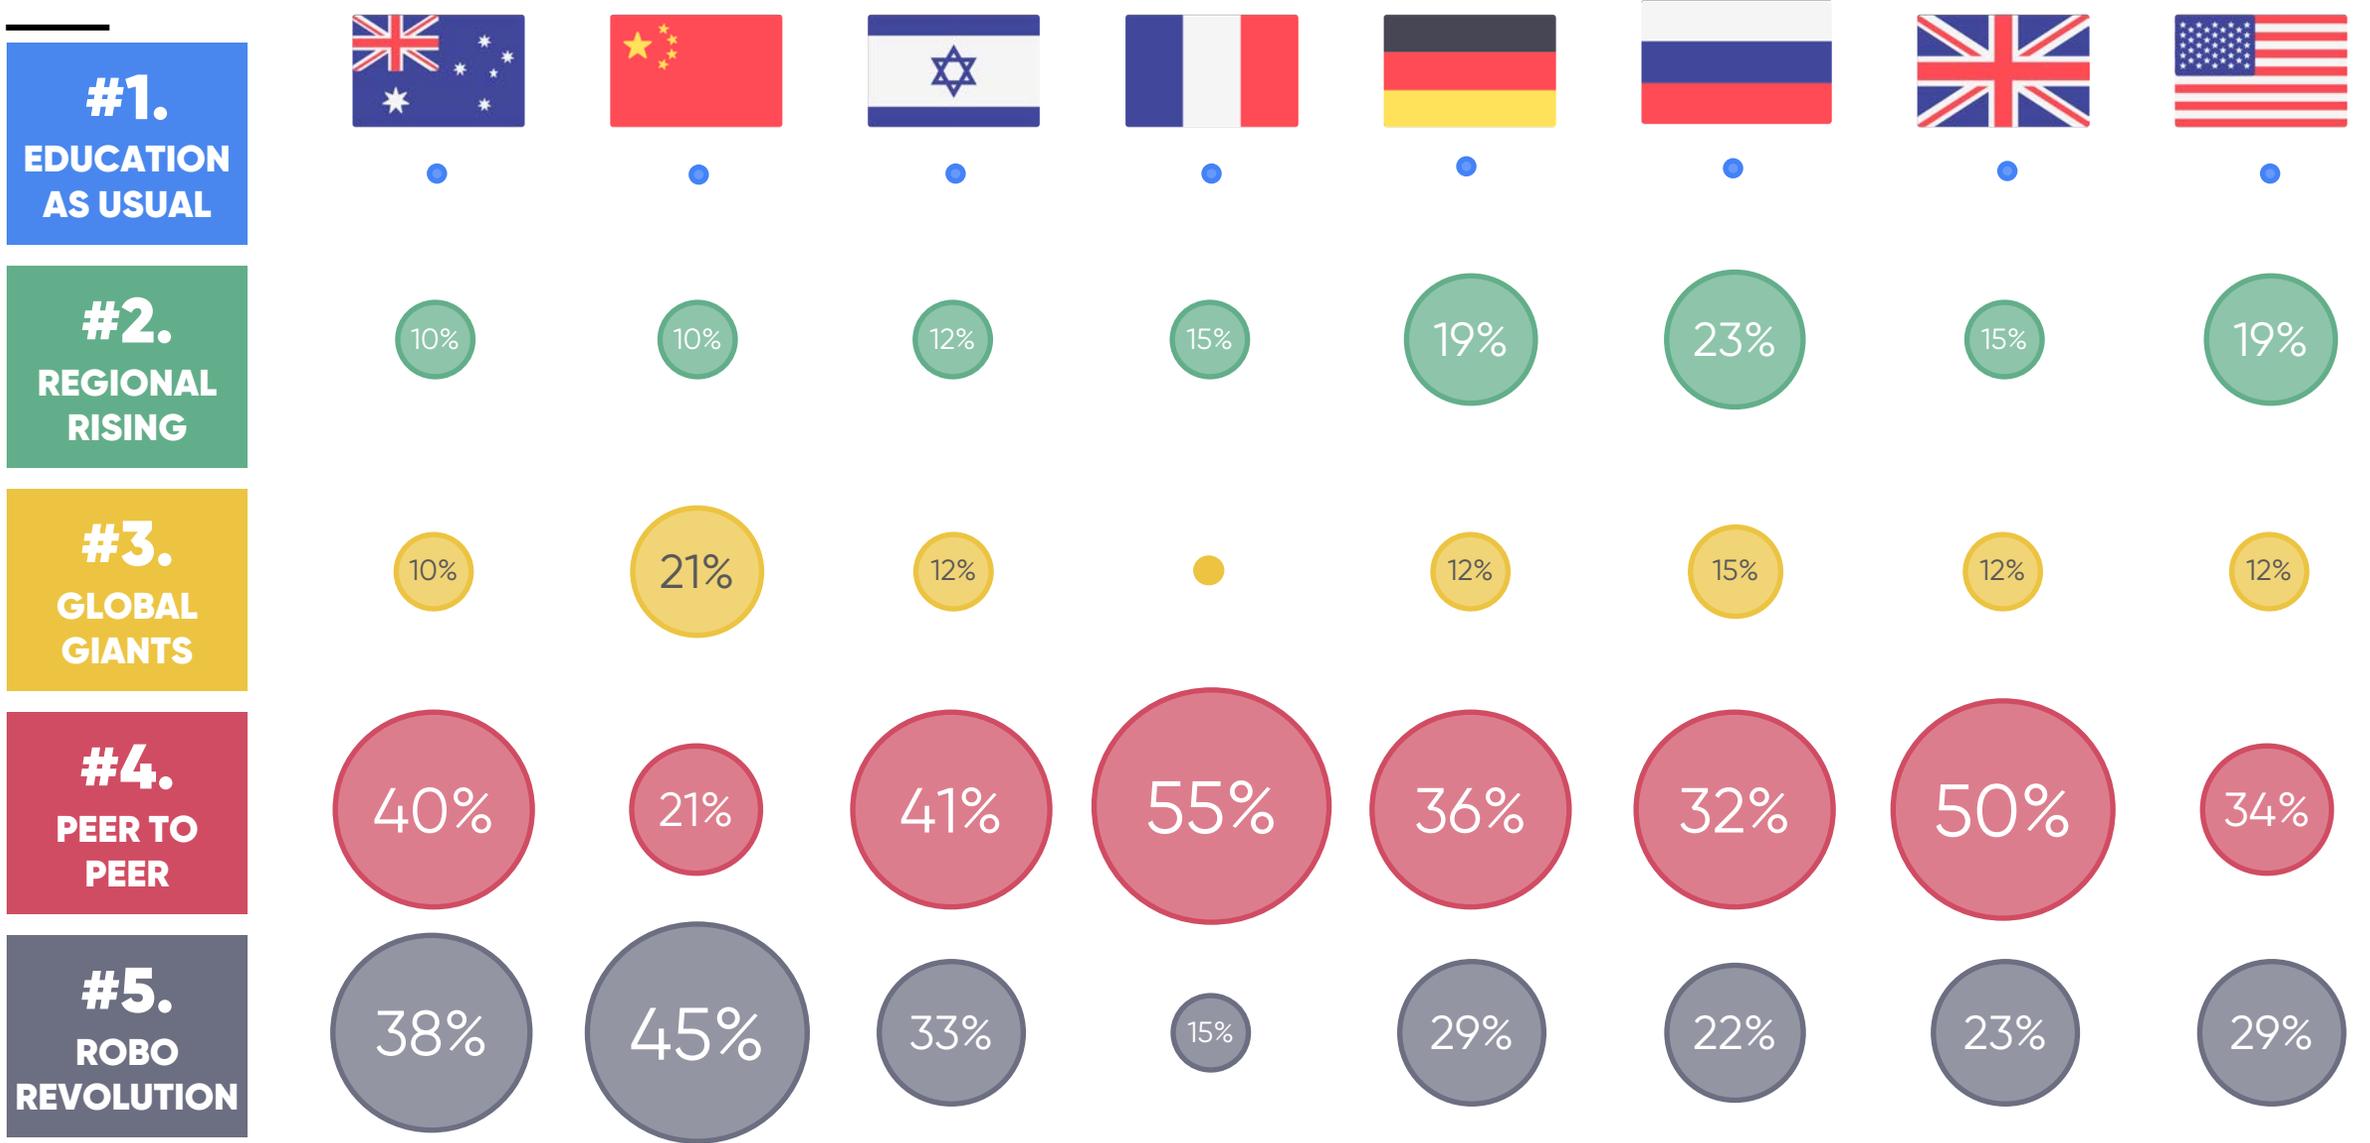

Regional Rising
 Regional alliances dominate the competitive education landscape, supported by strategic and political cooperation. Cooperative blended delivery and regional talent hubs cross-load labor supply and demand to strengthen regions.

Global Giants
 This global free market environment has fostered the emergence of 'mega-organisations' with ubiquitous brand recognition and the scale to achieve significant efficiencies and industry power.

Peer to Peer
 Learning online through rich, personalized human to human experiences dominates the post-secondary and skills training sectors. Blockchain technology fundamentally reconfigures credentialing and unlocks the collective creativity and IP of teachers.

Robo Revolution
 AI drives a complete reversal in 'who leads learning', with virtual tutors and mentors structuring learning paths, providing assessment tasks, giving feedback, adjusting according to progress and organizing human tutoring when needed.

Global Scenario 'Preferences'
